"MY APPROACH TO THIS DESIGN IS BASED ON A WISH
TO IMPROVE AND REFRAME THE EXISTING."

Kenneth Waaben, Designer

The Reframe Collection by Unidrain is an exclusive and unique series of bathroom accessories grounded in Scandinavian design and quality. Each product is designed with innovative, unique and intelligent features to improve the functionality. The Reframe Collection is reframing the existing, bringing new functionality into bathroom accessories.

SHOWER WIPER

Separate shower wiper and wall mount with integrated magnets to keep the wiper in place. The wiper consists of two parts; a reinforced steel frame and a high quality silicone blade. This construction ensures an effective and even cleaning of all surfaces. Built in 'bumpers' on all sides protect your tiles from scratches and marks.

CORNER SOAP SHELF

Soap shelf in a reinforced steel plate to secure stability. Discreet grooves drain water away and an anti-slip barrier keeps shower essentials from sliding when the shelf is wet. The innovative wall mount can be adapted to corners, which are not exactly 90°.

TOWEL BAR

The towel bar has a solid and unique mounting design and keeps your bathroom in harmony - even your most fluffy towels will stay in place, all the time.

SOAP SHELF WITH SHOWER WIPER

Besides creating a place for your shower essentials, the shelf also provides a fixed home for the shower wiper. Hidden magnets in the wall mount and shower wiper ensure a secure and discrete placement, keeping the wiper handy and easy to access at all times. The wiper consists of two parts; a reinforced steel frame and a high quality silicone blade. This construction ensures an effective and even cleaning of all surfaces.

PEDAL BIN

Engineered for sturdiness, the pedal bin will stay in place while users enjoy the quiet elegance of the soft open/close function and a lid that won't collide with the wall. A specially developed tape keeps the bag firmly in place and invisible from the outside. With all mechanics hidden inside, the bin remains minimalist from every angle and easy to clean.

TOILET BRUSH

Besides the sleek design, you will be pleased with the anti-drip function. The inner plastic container has a splash guard, which extends over the outer cover and ensures that no bacteria can get in between the two.

An external handle allows you to empty the container without interfering with germs. The brush head is replaceable and can easily be exchanged. Choose between a wall mounted and a floor standing version.

TOILET PAPER HOLDER
SPARE TOILET PAPER HOLDER

Keep your toilet paper nice and centered with the innovative paper holder. The holder is reversible for your convenience and an integrated magnetic part will keep the toilet roll in place and optimise its friction. The spare toilet paper holder has a separate rubber part, that centers the toilet roll independent of the various inner sizes, that toilet rolls come in.

SOAP DISPENSER

Keep your soap in style with this elegantly streamlined soap dispenser. The Reframe series is all about quality, style and clever functions: for example, the angle of the dispensing unit ensures that the soap ends up in your hand – not on the sink. And it works no matter where you push, making it a real pleasure to use. As practical as it is stylish, this soap dispenser is also very easy to refill and clean.

TOOTH BRUSH HOLDER

Toothbrush holder. Features a two-part insert where one compartment holds the toothpaste while the other is for toothbrushes, ensuring that the various parts do not touch each other. The insert can be removed for easy cleaning. Non-slip base.

HIGHLINE COLOUR - DRAIN UNIT SERIES

The Reframe Collection is designed to match our exclusive, award winning HighLine floor drain series. Five different colour options give you the possibility of matching all metal details, conveying a subtle feeling of luxury.

Both series come in: copper, brass, brushed stainless steel, hand polished stainless steel and black. Our colours have been meticulously chosen and matched precisely with the colours of other manufacturers.

COLLECTION & MEASUREMENTS

CORNER SOAP SHELF
288 (L) x 211 x 211 mm

PEDAL BIN
315 (H) x 281(W) x Ø212 mm (4L)
